

## DENOUNCES TYRANNY

Senator Frelinghuysen Denounces Demands of Bituminous Coal Miners as Tyranny—Facts with Which Public Should be Acquainted.

The following extracts from Senator Frelinghuysen's talk in the Senate in regard to the coal situation are worthy of careful reading and thoughtful consideration:

"For President, a few weeks since I offered in this Senate a resolution authorizing the Interstate Commerce Commission to investigate the coal situation. I was made chairman of a subcommittee which is engaged in making this inquiry. At the proper time we will, through the general committee, report our findings to this body."

"It was while in the prosecution of the work of investigation assigned to me that certain facts were brought to my notice with which in my opinion the Senate and the people we represent should be made acquainted. I ask unanimous consent to present to the Senate for publication in the Congressional Record, certain papers relating to the existing bituminous coal situation, chiefly official correspondence passing between the United Mine Workers of America and the associated coal operators."

"Before proceeding further, however, I should state that the daily papers, within the past forty-eight hours, indicate that the officials representing the anthracite miners have just reached an agreement with the coal operators, continuing until March 31, 1920, the existing wage scale. All honor to them for that decision."

"But the officials representing the bituminous miners have pursued a radically different course. Correspondence which I am about to offer presents an ominous situation, affecting in the highest degree the prosperity, peace, happiness and health of the American people."

"I have been a friend of labor, of organized labor, throughout my public career, both in the Senate and in the House of Representatives. I am not a friend of the capitalist or the tyrant of the laborer, but I am not a friend of the laborer who is worthy of a man or set of men is entitled to a wage that will enable him to support his family and to live decently. I believe that the laborer is worthy of the support of the community."

"I have been a friend of labor, of organized labor, throughout my public career, both in the Senate and in the House of Representatives. I am not a friend of the capitalist or the tyrant of the laborer, but I am not a friend of the laborer who is worthy of a man or set of men is entitled to a wage that will enable him to support his family and to live decently. I believe that the laborer is worthy of the support of the community."

# ANNOUNCEMENT OF Vital Interest to Land Buyers

The continuous and growing demand for agricultural lands, particularly lands that can be purchased cheaper than in northwestern Ohio and which offer to the prospective purchaser, the same agricultural advantages and returns, has caused us to investigate several localities. As a result of which, and after thoroughly investigating, we use no hesitancy in recommending and offering for sale the land to be found in Clinton County, Michigan.

## LOCATION

Clinton county, Michigan is located in south central Michigan, latitude 43, longitude 85. It is in the fourth tier of counties and St. John's, the County Seat of Clinton county, is approximately 85 miles north of the Michigan and Ohio state line.

40 acres of practically level black loam land, running uniform throughout the entire farm, three and one-half miles from market, on a good gravel pike road, excellent improvements consisting of a good two story eight room house a good repair with cellar, heated by furnace and practically modern, good frame hipped roof barn, wagon and tool shed, corn crib, granary, chicken house. The farm is all well fenced and all under cultivation and is all here thoroughly cultivated except about four acres of standing timber. Excellent water furnished by windmill. Price is \$165.00 per acre and we can arrange to sell this farm on long time with a very small down payment.

## CLIMATE AND SEASON

The climate is ideal, comparing in many respects with that of Northwestern Ohio, except the surrounding country as a whole being influenced and modified by the great lakes, is not subject to drought or long seasons of damp, rainy weather. Reports of the U. S. Weather Bureau at Lansing show that the average annual day temperature ranges from 32 degrees in the summer to 28 degrees in the winter and that the average night temperature is approximately 61 degrees in summer and 12 degrees in winter. Long, excessive heating spells in the summer or abnormally protracted cold periods in winter very unusual. Governmental statistics covering a period of the last 25 years show that the average date of the last killing frost in the spring in Clinton county does not later than May 10th and the earliest killing frost in the fall not earlier than Sept. 30, thus affording a normal growing season of at least 145 days. The average annual rainfall for Clinton county, Michigan, ranges from 30 to 35 inches and is usually well distributed throughout the growing season. The sunshine annually will average somewhat over fifty per cent of the possible amount, running as high as seventy per cent of the possible amount during the months of June, July, August and September.

## SOIL AND CROPS

Generally, Clinton county is level to gently undulating with very little if any variation in soil between the small ridges that traverse the county somewhat irregularly, and the broad till plains which occupy the greater portion of the entire area of the county. In fact out of the five hundred and seventy-six sections of land in Clinton county, four hundred and ninety-three sections or approximately eighty-six per cent of the entire area is of the black clay loam till soil. The soil is a rich black loam soil of the Miami clay variety, and is composed of the early glacial and lake bed

deposits. It is a soil ideal in texture and one well adapted to the production of the most profitable agricultural crops.

160 acres of land located three miles from market on good gravel road, land is all practically level black loam soil, running uniform throughout the entire farm. It is all under cultivation except about ten acres of good standing timber. It is well fenced and cross fenced and is one of the ideal farms of Clinton county. The improvements are good and in very fair repair. They consist of good ten room house, a barn 40x80 feet with stock shed adjoining. It also has the usual outbuildings such as tool shed, granary, chicken house, etc. Price of this farm is \$145 per acre and payments can be conveniently arranged to suit the purchaser.

The principal crops grown, in order of their acreage, are corn, oats, wheat, clover, timothy, beans, barley, sugar beets and alfalfa. Corn in Clinton county averages very favorably with the corn in Northwestern Ohio. The production of oats for the year has equalled the average in this section. Wheat has produced from 20 to 45 bushels per acre, in fact we have not interviewed one farmer in Clinton county who has produced less than 20 bushels of wheat per acre. Clover has yielded from 1 to 1 1/2 tons to the acre. Timothy hay from 1 to 2 1/2 tons per acre. Beans that are just being harvested and threshed, are producing from 12 to 18 bushels per acre at a price net to the farmer of \$4.00 a bushel. The present crops of sugar beets has every appearance of yielding from 6 to 10 tons per acre. Alfalfa, while the acreage is very small, shows that the soil is well adapted to its growth and indicates that a larger acreage will be devoted to this crop in the years to come.

80 acres of all level black loam soil laying four and one-half miles from market, on good gravel pike road, school eighty rods from the improvements. The farm is well fenced and cross fenced and the improvements are excellent, having good house and barn with the usual outbuildings. The farm is all under cultivation and is all being thoroughly cultivated. Price of this farm is \$155.00 per acre. Payments to suit the purchaser.

Clinton county, Michigan, is well supplied with an abundance of the finest water, the improvements in a general way above the average to be found in Northwestern Ohio. The roads, running generally on the section lines, are principally gravel piked roads. Schools are conveniently located throughout the county and are easily in reach of all. Churches of every denomination are accessible and within a reasonable distance from most any locality. The larger towns and villages as well as the smaller ones, which are scattered throughout the county, offer the best of market facilities for any kind of crops.

Write us or Come in and let us go over the farms and the agricultural possibilities of Clinton county, Michigan. You will be interested and you will be more interested if you will go with us and let us show you what we have to offer. Our office is located at 108 N. Lynn street in Bryan, Ohio. We will be glad to meet you there any time. Our phone number is 1263. Call us by phone if you desire us to call and explain Clinton county, Michigan, more thoroughly. Above all do not delay. Now is the time to buy this land.

## STRAYER REALTY CO.

Bryan, Williams County, Ohio.

## STRAIGHT FROM THE SHOULDER

Senator Miles Poindexter of Washington Announces His Candidacy For the Republican Nomination For the Presidency and His Attitude Upon Vital Questions of the Day

We are moved to publish the following not because we are advocating the candidacy of Senator Poindexter, but because we do admire the straight forward, all American way in which the gentleman states just where he stands and just what he thinks in regard to the questions before the nation. It may not be good politics but it strikes us that its mighty good Americanism.

"This government was founded on the principles that no special class should control it;

The absolute security of every man under the law in his person and property;

The safeguarding of the general welfare of our people by keeping the government at all times under their own control both as against any special class at home, and as against any foreign power or combination of powers;

And the active use by the government, in the sphere of its action, of the full powers of the nation to protect every citizen, of whatever station he may be both at home or in a foreign land, or on the sea, from unlawful injury to his person, his property by any individual or special class, or by any foreign power.

Every necessary agency of the government should be used to give complete protection to the lives and lawful rights of American citizens in Mexico; and the international duties we have assumed as to the country, by reason of our proximity, and as incidental to the Monroe Doctrine, should be at once performed. The launching and conducting, without definite purpose or result, of military expeditions to Vera Cruz and other portions of Mexico, also as at Archangel and other portions of the world, are criminal in the reckless disregard of life and national treasure expended without the possibility of any benefits whatever.

Alien slackers, who renounced their "first papers" of naturalization in order to escape military service, should be denied citizenship in the future, and should be deported without delay to the several foreign countries from which they came, to be there, in order that the opportunities they enjoy may be left for loyal citizens and soldiers.

Revolutionary communism, by what ever name it may be called, must be met and put down wherever it appears, as subversive of liberty. There can be no compromise with it. The attempt of certain radical labor leaders to coerce Congress to enact legislation proposed by them, if successful, would be government by a class, as in Russia, and not "by the people," as in the United States. The threat to tie up transportation until the railroads are nationalized and delivered to the control of the employees if successful, would be government by terror, for a special class.

The effort of certain radical leaders of labor organizations to secure control of the police force of the various cities of the country, if successful, would give to a small special class absolute control of officers of the law. It would give a certain class control of the enforcement of the law, and of governmental agencies established to preserve the peace. Its success would mean the abdication of the government in favor of a class, and the immediate establishment of dictatorship. It should not be open to debate or negotiation.

This nation cannot be ruled by capital, and it cannot be ruled by labor. Both capital and labor must be subjects to the rule of the people. The government must be supreme. The just claims of labor should be recognized and every opportunity should be given to laboring men and their families for comfort and happiness. The laboring man, above all others, is benefited by the preservation of law and order, the security of life, person and property against violence and arbitrary rule. But the effort of any labor leader to put labor in control of the government, by means of industrial dictatorship, economic pressure, intimidation of violence, or so-called direct action, cannot be tolerated, any more than such an effort on the part of combined capital would be tolerated. Either would violate the cardinal principles of free government.

Communism is inconsistent with the vested rights of a laborer to the wages of his labor. The right to work, to join or not to join a union, and to accumulate, or to use, as he sees fit, and to transmit to his children the wages of his work, is an essential part of "life, liberty and the pursuit of happiness."

These essential elements of liberty are menaced by revolutionary doctrines. This revolutionary movement is international in its scope and purpose. It has received powerful encouragement from the Administration. Many of its advocates have occupied high place in the government. Instead of encouraging a class dictatorship it is the business of the government to preserve the ordered liberty of the people, and to protect by every means in its power the institutions on which it is founded. Defenders and advocates of those who have been convicted by due process of law of crimes of violence, committed in pursuance of a revolutionary and communistic program, should be dismissed from the government service.

The process of making a "supreme sacrifice" of America and of "joining our fortunes with the fortunes of men everywhere" should be stopped. The opposite of industrial dictatorship is saving instead of sacrificing our great institutions, and of protecting the rights of our people. The process of internationalizing our forces must be reversed, and the separate interests of this nation with due regard for the rights of others, must be cherished again. America in her mighty separate station which the fathers gave to her, and champion of the new world, the friend of the old, must preserve her sovereign independence as the one secure seat and refuge of genuine liberty.

Extraordinary sacrifices produced by war, (Continued on page six)

hunger will affect all classes. But who will suffer most? The poor, of course, the widows and orphans who have been unable to lay in any winter supply. These will be the chief victims.

In one of the papers, I am sure, it is a demand for the nationalization of the mines, the country—that the Government should raise a few billions of dollars to buy the mines, and turn them over to the miners to be operated by the latter. A Plumb plan for taking over the mining industry.

A nation who so nobly arose to the occasion in 1917 and 1918 and crushed the tyranny which dominated Europe and menaced the peace of the world will not fail in this crisis. A greater despotism menaces

America than before or during the war with the imperial government of Germany; chiefly greater because it is at our very doors. We are at what the doctors called gall stones, often I thought I would die before the doctor could get here when he would give me a hypodermic of morphine and advise an operation. A neighbor told me about Mayr's Wonderful Remedy for stomach trouble, and since taking the first dose 2 years ago I have not had an attack nor needed a hypodermic. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

I stand in this public place and issue this solemn warning to the American people. If you would remain a free people, arise in your majesty and defeat this conspiracy against law, order, and the weak.

LADY OVERCOMES USE OF MORPHINE. "Troubled about 10 years with what the doctors called gall stones, often I thought I would die before the doctor could get here when he would give me a hypodermic of morphine and advise an operation. A neighbor told me about Mayr's Wonderful Remedy for stomach trouble, and since taking the first dose 2 years ago I have not had an attack nor needed a hypodermic. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

THEY GET ACTION AT ONCE. Foley Kidney Pills invigorate strength and heal inactive, weak and diseased kidneys and bladder. Mrs. O. J. Ellis, 505 8th Ave., Sioux Falls, S. D., writes: "I suffered with kidney trouble, used to have severe pains across my back and felt miserable and all tired out, but after taking Foley Kidney Pills I am well." Fink & Haumesser.

The American people who have responded so wholeheartedly to the appeals of the Red Cross, will be eager again to avail themselves, during this week of the opportunity to enlist themselves on the roll of the Red Cross and thereby re-dedicate the efforts of this great organization to the service of humanity.

STATION NAMES WEEDS. Weeds will be identified for Ohio school teachers by the Department of Botany at the Ohio Experiment Station, Wooster, free of cost, during the fall and winter.

This service is offered particularly to school teachers and agricultural instructors, because weeds are a menace to Ohio farmers. Many of the obnoxious weed seeds have become distributed over the State with farm grain and seeds.

The Red Cross is like that "Mercy" which the poet says, "is twice blessed, it bleaseth him that gives, and him that takes."

Doings of the Commissioners. The Surveyor authorized to purchase stone for repair of road west of Whiteville and hire A. D. Roberts to haul same and level the same on the road.

Contract and bond on bridge No. 374 submitted by Albrink and Bichon, approved and accepted on October 27, 1919.

Bonds and contracts approved and assessments ordered on Ditch No. 1229, petitioned for by Nate Robinson, Ditch No. 1230 petitioned for by Pike Township Trustees and Ditch No. 1231, petitioned for by Pike Township Trustees.

Dollars derived from the Third Roll Call will launch the Red Cross peace program of service to Americans.
